

Details of the Seminar

Seminar on “**Career Opportunities of Computational Finance in the Industry**” is organized by Quants Society under the supervision of Mathematics Department on Friday 3rd of December 2020. Most senior alumni of Computational Finance Discipline are invited as guest speakers of the session. Ms. Saarah Rasheed- Manager Quants Strategy, at NBP Funds Limited- participates as the first speaker of the session. Mr. Mohsin Khan- Financial Sales Controller, at Berlin Brands Group, Germany- shares his valuable thoughts with the audience of the event. Both speakers discussed various employment opportunities for students of Computational Finance in the Industry. They further highlighted the skills sets required by the industry for fresh graduates. Moreover, the usage of different subjects from the curriculum of the discipline in the industry was also part of the discussion. Opportunities for foreign scholarships (for higher studies) specifically for the students of Computational Finance were discussed by Mr. Mohsin Khan. In the end, the Chairmen of the Department- Prof. Dr. Mirza Mehmood Baig- delivered his speech and gave a token of appreciation to the guest speakers.

Following are a few glimpses of the session.
