

FINANCIAL MODELLING

We are excited to share the highlights of the recent session held on 20th November, 2023 on topic “Financial Modelling” featuring Mr. Ali Haider, Consultant in Deal Advisory at KPMG.

Mr. Haider delved into various financial terms, providing a comprehensive overview that proved invaluable for the final year students in attendance. His expertise illuminated complex concepts, offering clarity and depth to the understanding of financial modeling.

This session was thoughtfully designed to align seamlessly with the course outline for final year students. The content was tailored to complement their academic journey, ensuring relevance and applicability to their studies.

Mr. Haider's practical approach to explaining assumptions and valuation methods was a standout feature. Attendees gained firsthand insights into the application of theoretical concepts, bridging the gap between classroom learning and real-world scenarios.

The session delved into various valuation methods, providing a comprehensive overview. Mr. Haider not only introduced these methods but also elucidated on their practical applications, empowering students with the know-how to navigate and apply different valuation approaches.

The audience's enthusiasm and interaction during the session were commendable. A friendly and engaging discussion unfolded as students actively participated, reflecting their keen interest in the subject matter.

We extend our gratitude to Mr. Ali Haider for sharing his expertise and practical insights. This session marks a significant step in equipping our final year students with the knowledge and skills essential for their future endeavors.
