

# Seminar on Investment in Pakistan Stock Exchange

On 6<sup>th</sup> January, 2023, Quants Society organized an insightful seminar for the students, who were inquisitive to know about the investment in Pakistan Stock Exchange. The venue, Civil AV Hall, was pleasantly decorated. The event started with the beautiful recitation of the Holy Quran, followed by the national anthem.

The seminar was then led by our respected speaker, Mr. Muhammad Iqbal Bhabha, Director Business Planning of Bhabha Group and Unique Agencies. He shared his extensive expertise and experience with the Pakistan Stock Exchange.

He informed us about the many venues through which individuals invest and how investment on the Pakistan stock exchange is the best seed. He stressed the importance of investing in PSX since it is the only endeavor that gives liquidity, profitability, and security that no other type does.

Furthermore, he informed about active and passive income, PSX fundamental and technical analysis, and how investing in the Pakistan stock market yields the maximum return in a legal, ethical, and halal manner. Mr. Iqbal Bhabha summed up the enlightening lecture with some insightful comments. He advised the audience to take the long approach while investing in PSX in order to prevent frauds and losses. Furthermore, to spend quality time with family and to respect all beings since this is the secret to prosperity.

Following an engaging session, the chairman of Computational Finance, Dr. Mirza Mehmood Baig, graced the audience with his presence. He briefed the students about the discipline of Computational Finance, how it began, and the challenges that students in previous batches of Computational Finance programme had to experience.

He informed the students that the name Computational Finance was proposed by Prof. Dr. Sarosh Hashmat Lodi, the respected Vice Chancellor of NED. He also advised the CFians that Computational Finance is a market-oriented

programme suitable for students passionate towards Finance and computation.

Lastly, the respected Computational Finance faculty and the chairman congratulated Team Computational Finance on their victory in the NED debate cup, Season two. Team Computational Finance took first place out of 83 speakers at the NDS season prize to Team Computational Finance.

two. The program's mentors presented a While the team's efforts were recognized by CFians, victory at NDS conveyed a good picture of Computational Finance as a whole.

To conclude the session, Dr. Mirza Mehmoood Baig, Head of Department of Mathematics, accompanied by Mr. Samiullah Qureshi, awarded Mr. Mohammad Iqbal Bhabha with a token of appreciation.
